

Cooperation Agreement - FlowMac

FlowMac is an established software system designed for modeling of pulp and paper processes and power plants. It is supplied only by Papermac AB. Support and upgrade is given by Papermac AB in cooperation with other software developers as Pulp-Mac AB, Mälardalens University and Håkan Fridén, Fridén Infotech AB. MillMac AB is since 080330 no longer involved in upgrade and support of FlowMac.

Services to Licenced Customers

- Access to FlowMac libraries and tutorial models
- Support in modelling work
- Upgrade of blocks according to customers needs
- Basic training of users, new or current ones. Done in Flowmeetings on the web and based on customers actual needs.
- Open source. Training in modification of scripts for own blocks.

Subscription

Paid per site active in modelling work, EUR 500/year. Companies with many sites can order a company subscription to a max. subscription of EUR 2500.

Order

By use of your own standard. Include invoice data, commercial and technical contacts, email addresses. pdf file preferred.

The agreement is started by an order.
